Nexis Uni Tips:

**Tip #1:** This is the best way to find company information in this database, and anything that is hyperlinked will have more information if it is available for your company.

If you wish to use its other features in this database than those mentioned here for business information, please ask a librarian for assistance.

**Tip #2:** Always compare company data found in one business database with others. Each database updates its information at different times. It’s also good to verify the information you get from one in another, for the very same reason.
